Summary

Hello! I'm Dmytro Cherniavskyi, a dedicated DevOps Engineer with a strong background in system administration and cloud technologies. I excel at implementing automation solutions using Terraform, Ansible, Helm, and scripting tools like Bash and Python. My focus is on delivering efficient, scalable, and secure systems to support business growth.

Experience

DevOps Engineer
SEOCORE.Agency
Nov 2021 - Apr 2024 (2 years 6 months)

• Designed and managed CI/CD pipelines, making deployments smoother and cutting down errors significantly.
• Used Terraform and Ansible to create scalable and consistent cloud environments.
• Implemented Docker and Kubernetes for containerization and orchestration, boosting application scalability and performance.

Cloud Engineer
Relativity
May 2020 - Oct 2021 (1 year 6 months)
• Implemented Ansible playbooks for remote task execution.
• Utilized Terraform to configure various AWS services like EC2, S3, VPCs, and more.
• Oversaw and monitored AWS cloud infrastructure to ensure regular backups.
• Devised and launched scalable, highly available infrastructure on AWS.

Education

Admiral Makarov National University of Shipbuilding
Bachelor's Degree, Electrical and Electronics Engineering
2010 - 2014

Licenses & Certifications

AWS Certified Solutions Architect – Associate (SAA) - AWS

AWS Certified Cloud Practitioner (CCP) - AWS

Certified Kubernetes Administrator (CKA)

Terraform Associate

Skills

AWS (SAA Certified) • Lambda • API Gateway • EC2 • RDS • S3 • VPC • CloudFormation • EKS • ECR Automation & IaC: Terraform
